Welcome to our note-taking software! This instruction will help you get started quickly and learn how to use our software to record and manage your notes. Follow these steps:

1. Sign up and log in：

- Once you open the website, you will see a registration or login page.

- If you are a new user, please click the "Login/Register" button, you will jump to the verification code login section, after successful login, you can register a new account by default, you can set your own password, otherwise the next login can only use the verification code to log in.
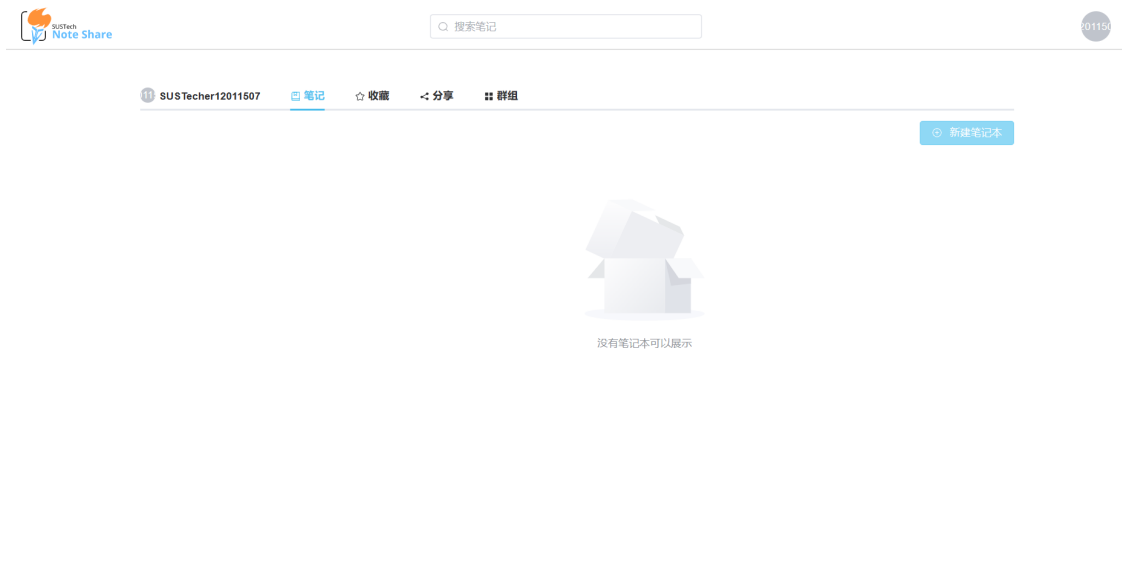

- If you already have an account, you can choose to log in with a password and enter your username and password to log in.
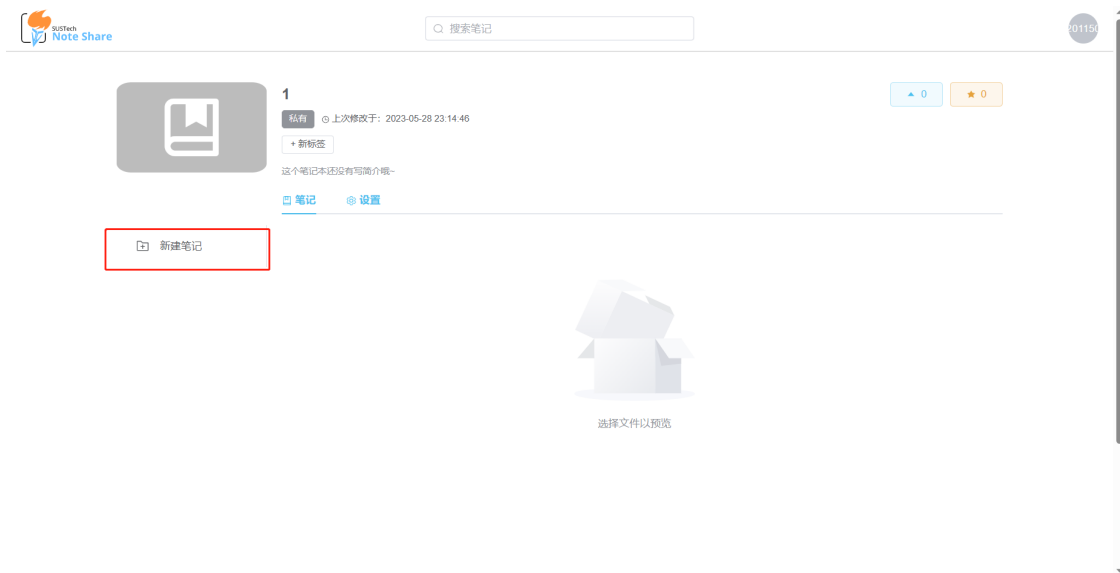

2. To create a new notebook:

- After logging in, you will see a blank notebook interface.

- Click the "New Notebook" button to create a new notebook.

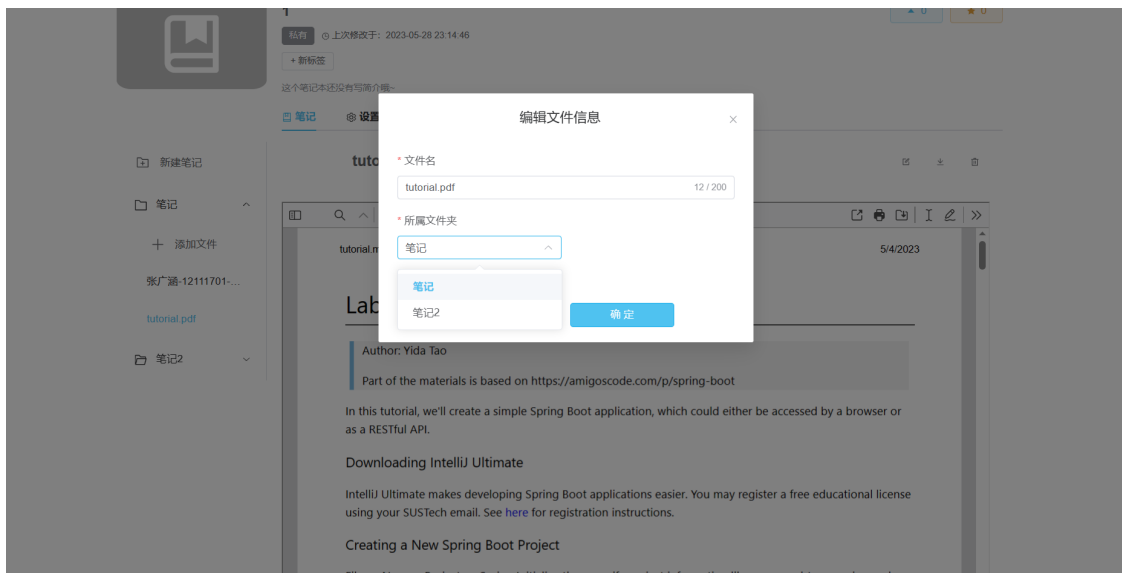

3. To create a new note:

- Once you enter the notebook, you will see a blank note interface.

- Click the "New Note" button to create a new note.

- After the notes are created, you can upload local images, PDFs, code files, or create text files to record text notes.

4. Organize and manage notes:

- In the sidebar inside Notebooks, you can see options to organize and manage your notes.

- Tags: You can add tags to your notes to better organize and retrieve them.

- Preview: You can preview PDF files and pictures.

- Search function: Use the search bar to find specific notes in the public state. You can search by title, tags.
